The Members of the Executive Committee of the Council perused the letters of the Central Govt. dated 04.07.2014, 07.07.2014, 08.07.2014 & 09.07.2014. The Central Govt. by the said letters has forwarded communications of following private medical colleges claiming compliance with the deficiencies in infrastructural, teaching and other facilities, which had been pointed by the MCI on the basis of the respective inspection reports - with a request to verify the correctness

of such claims of the medical colleges and to make fresh recommendations with specific reasons by 12th July, 2014. Such communications of the medical colleges forwarded to the MCI by the Central Govt. are in relation to the above mentioned colleges.

The Members of the Executive Committee observed that the Council, with regard to the aforementioned medical colleges had already sent its recommendation to the Central Govt. prior to the last date i.e. 15th June 2014 (extended by the Hon'ble Supreme Court for the present academic year 2014-15 from 15th of May 2014 to 15th of June 2014).

The Members of the Executive Committee in this regard, as to whether the Council could consider / reconsider any application / scheme for establishment of new medical college / renewal of permission and increase of seats in MBBS course in the existing medical colleges after the cut off dated i.e. 15th June 2014, is required to take into account and follow the stipulations contained in the regulations and various directions of the Hon'ble Supreme Court including in the judgment of the Hon'ble Supreme Court in the case of Mridul Dhar & Anr. Vs. UOI & Ors.- (2005) 2 SCC 65, wherein the time schedules for establishing a medical college / renewal of permission and increase of seats in the existing medical college has been upheld. The relevant portion of the directions issued by the Hon'ble Supreme Court are given hereunder:-

27. In exercise of the powers conferred by Section 10-A read with Section 33 of the Act, the MCI made the establishment of new medical colleges, opening of higher courses of study and increase of admission capacity in Medical College Regulation, 1993. The Regulations, inter alia, provided as a qualifying criteria that the eligible organization shall abide by Indian Medical Council Act, 1956 as modified from time to time and the regulations framed thereunder and shall qualify to apply for permission to establish new medical colleges only if the conditions therein are fulfilled.

28. The time schedule for the receipt of applications for establishment of new medical colleges and processing of the applications by Central Government and the Medical Council of India is fixed under the schedule to 1999 Regulations. The said schedule is as under-

"SCHEDULE FOR RECEIPT OF APPLICATIONS FOR ESTABLISHMENT OF NEW MEDICAL COLLEGES AND PROCESSING OF THE APPLICATIONS BY THE CENTRAL GOVERNMENT AND THE MEDICAL COUNCIL OF INDIA

	Stage of processing	Last date
1.	Receipt of applications by the Central Government	From 1st August to 31st August (both days inclusive) of any year
2.	Receipt of applications by MCI from the Central Government	30th September
3.	Recommendations of the Medical Council of India to the Central Government for issue of letter of intent	31st December
4.	Issue of letter of intent by the Central Government	31st January

5.	Receipt of reply from the applicant by the Central Government requesting for letter of permission	28th February
6.	Receipt of letter from the Central Government by the Medical Council of India for consideration for issue of letter of permission	15th March
7.	Recommendations of the Medical Council of India to the Central Government for issue of letter of permission	15th June
8.	Issue of letter of permission by the Central Government	15th July

Note: (1) The information given by the applicant in Part-I of the application for setting up a medical college that is information regarding organization, basic infrastructural facilities, managerial and financial capabilities of the applicant shall be scrutinized by the Medical Council of India through an inspection and thereafter the Council may recommend issue of Letter of intent by the Central Government.

(2) Renewal of permission shall not be granted to a medical college if the above schedule for opening a medical college is not adhered to and admissions shall not be made without prior approval of the Central Government."

.....

30. It cannot be doubted that proper facilities and infrastructure including teaching faculty and Doctors is absolutely necessary and so also the adherence to time schedule for imparting teaching of highest standards thereby making available to the community best possible medical practitioners

.....

32. Having regard to the professional courses into consideration, it deserves to be emphasized that all concerned including Governments, State and Central both, MCI/DCI, colleges, new or old, students, Boards, universities, examining authorities etc. are required to strictly adhere to time schedule wherever provided for; there should not be mid-stream admission; admission should not be in excess of sanctioned intake capacity or in excess of quota of any one, whether State or Management. The carrying forward of any unfilled seats of one academic year to next academic year is also not permissible.

.....

35. Having regard to the aforesaid, we issue the following directions:-

1-.....

4. It shall be the responsibility of all concerned including Chief Secretaries of each State/Union Territories and/or Health Secretaries to ensure compliance of the directions of this Court and requisite time schedule as laid down in the Regulations and non-compliance would make them liable for requisite penal consequences.

11

12. The time schedule for grant of admission to postgraduate courses shall also be adhered to.

13.

14. Time schedule for establishment of new college or to increase intake in existing college, shall be adhered to strictly by all concerned.

15. Time schedule provided in Regulations shall be strictly adhered to by all concerned failing which defaulting party would be liable to be personally proceeded with.

....."

The Members of the Executive Committee further observed that the Hon'ble Supreme Court in the case of Priya Gupta Vs. State of Chhattisgarh- (2012) 7 SCC 433, was pleased to re-emphasize the requirement of strict adherence to the time schedule. The Hon'ble Supreme Court vide its judgment dated 08.05.2012 in Priya Gupta Vs. State of Chhattisgarh- (2012) 7 SCC 433 has held that every person, officer or authority who disobey or fails to strictly comply with the directions of the Hon'ble Supreme Court shall be liable to be prosecuted under the provisions of Contempt of Court Act. The relevant portion of the directions issued by the Hon'ble Supreme Court are given hereunder:-

"

40. The schedules prescribed have the force of law, in as much as they form part of the judgments of this Court, which are the declared law of the land in terms of Article 141 of the Constitution of India and form part of the Regulations of the Medical Council of India, which also have the force of law and are binding on all concerned. **It is difficult to comprehend that any authority can have the discretion to alter these schedules to suit a given situation, whether such authority is the Medical Council of India, the Government of India, State Government, University or the selection bodies constituted at the college level for allotment of seats by way of counseling. We have no hesitation in clearly declaring that none of these authorities are vested with the power of relaxing, varying or disturbing the time schedule,** or the procedures of admission, as provided in the judgments of this Court and the Medical Council of India Regulations.

41. Inter alia, the disadvantages are:

.....

(3) The delay in adherence to the schedule, delay in the commencement of courses etc., encourage lowering of the standards of education in the Medical/Dental Colleges by shortening the duration of the academic courses and promoting the chances of arbitrary and less meritorious admissions.

.....

42. The Medical and Dental Councils of India, the Governments and the Universities are expected to act in tandem with each other and ensure that the recognition for starting of the medical courses and grant of admission are strictly within the time frame declared by this Court and the Regulations. It has come to the notice of this Court that despite warnings having been issued by this Court and despite the observations made by this Court, that default and non-adherence to the time schedules shall be viewed very seriously, matters have not improved. Persistent defaults by different authorities and colleges and

granting of admission arbitrarily and with favouritism have often invited criticism from this Court.

45. The maxim *Boni iudicis est causas litium dirimere* places an obligation upon the Court to ensure that it resolves the causes of litigation in the country. Thus, the need of the hour is that binding dicta be prescribed and statutory Regulations be enforced, so that all concerned are mandatorily required to implement the time schedule in its true spirit and substance. It is difficult and not even advisable to keep some windows open to meet a particular situation of exception, as it may pose impediments to the smooth implementation of laws and defeat the very object of the scheme. These schedules have been prescribed upon serious consideration by all concerned. They are to be applied *stricto sensu* and cannot be moulded to suit the convenience of some economic or other interest of any institution, especially, in a manner that is bound to result in compromise of the above-stated principles.

.....
47. All these directions shall be complied with by all concerned, including Union of India, Medical Council of India, Dental Council of India, State Governments, Universities and medical and dental colleges and the management of the respective universities or dental and medical colleges. **Any default in compliance with these conditions or attempt to overreach these directions shall, without fail, invite the following consequences and penal actions:**

47.1. Every body, officer or authority who disobeys or avoids or fails to strictly comply with these directions *stricto sensu* **shall be liable for action under the provisions of the Contempt of Courts Act.** Liberty is granted to any interested party to take out the contempt proceedings before the High Court having jurisdiction over such Institution/State, etc.

47.2. The person, member or authority found responsible for any violation shall be departmentally proceeded against and punished in accordance with the Rules. **We make it clear that violation of these directions or overreaching them by any process shall tantamount to indiscipline, insubordination, misconduct and being unworthy of becoming a public servant.**

47.3. **Such defaulting authority, member or body shall also be liable for action by and personal liability to third parties who might have suffered losses as a result of such default.**

.....
78.4. With all the humility at our command, we request the High Courts to ensure strict adherence to the prescribed time schedule, process of selection and to the rule of merit. We reiterate what has been stated by this Court earlier, that except in very exceptional cases, the High Court may consider it appropriate to decline interim orders and hear the main petitions finally, subject to convenience of the Court. We may refer the dictum of this Court in the case of *Medical Council of India v. Rajiv Gandhi University of Health Sciences* (2004) 6 SCC 76, para 14 in this regard.

78.5. We have categorically returned a finding that all the relevant stakeholders have failed to perform their duty/obligation in accordance with law. Where the time schedules have not been complied with, and rule of merit has been defeated, there nepotism and manipulation have prevailed. The stands of various authorities are at variance with each other and none admits to fault. Thus, it is imperative for this Court to ensure proper implementation of judgments of this Court and the Regulations of the Medical Council of India as well as not to overlook the arbitrary and colourable exercise of power by the concerned authorities/colleges.

.....”

The Members of the Executive Committee further observed that recently the Hon'ble Delhi High Court in W.P (C) No.3976/2014- Shree Chhatrapti Shivaji Education Society & Anr. Vs. Medical Council of India & Ors. dt. 03.07.2014 on the issue whether the MCI can conduct any inspection after 15th of June 2014, has held as below:-

“.....

Present writ petition has been filed seeking quashing of the letter dated 17th May, 2014 as well as issuance of an appropriate writ seeking a direction to the respondents to grant renewal of permission for third Batch of MBBS students for the academic session 2014 -2015.

A perusal of the impugned letter reveals that as many as 34 discrepancies/deficiencies were pointed out by the respondent-MCI after inspecting the petitioner's facilities.

Learned counsel for petitioner contends that discrepancies/deficiencies pointed out are minor and non existent. He further states that deficiencies pointed out by MCI vide impugned letter have now been removed/clarified. He prays that a fresh inspection by MCI be ordered at petitioner's cost.

Mr. T. Singhdev, learned counsel for MCI states that a fresh inspection cannot be carried out as the time for carrying out inspection and making recommendation to the Central Government by the MCI has expired on 15th June, 2014. In this regard, he refers to the schedule laid down by Supreme Court in Priya Gupta Vs. State of Chattisgarh & Ors., (2012) 7 SCC 433. He further states that Supreme Court during 2014 vacations has extended the limitation for MCI till 15th June, 2014 and for Central Government till 15th July, 2014 to take a decision. He has handed over the applications filed by the MCI before the Vacation Bench of the Supreme Court. Same is taken on record.

Mr. Singhdev, lastly contends that deficiencies pointed out by MCI in its report are serious.

Mr. Pushkarna, learned counsel appearing for the UOI states that there is no prayer against the Central Government. He submits that a fresh hearing under Section 10(A)(4) of IMC Act 1956 is only given to new medical colleges/institutions or to those colleges who have increased their MBBS seats for the first time.

Having heard the parties, this court is of the view that as time for carrying out fresh inspection and making recommendations by the MCI has, expired on 15th June 2014, petitioner's oral prayer for re-inspection by MCI cannot be granted. However, as a compliance report has been filed by the petitioner with the Central Government, same is directed to be considered before passing of an order by the Central Government /MCI on or before 15th July, 2014.

In the event, petitioner is aggrieved by the final decision taken by the Central Government/MCI, it shall be open to the petitioner to challenge the same in accordance with law. Consequently, at this stage no interdiction is called for.

With the aforesaid directions, writ petition stands disposed of.....”

In this regard, the Ld. Solicitor General of India has opined and has advised the Council that in view of the binding directions of the Hon'ble Supreme Court, it is not permissible and the MCI cannot carry out any fresh inspection regarding any application / scheme of a medical college after 15.06.2014 for the present academic year 2014-15. It has further been advised that in view of the dicta of the Hon'ble Supreme Court any authority requiring the querist (MCI) to carry out any fresh or compliance verification inspection after 15.06.14 would attract

the initiation of proceedings under the Contempt of Court Act, 1971. The relevant portion of the opinion of the Id. Solicitor General of India is as under:-

- (i) **“The querist (MCI) cannot carry out any fresh inspection regarding any application / scheme of a medical college after 15th June 2014 for the present academic year 2014-15.**
- (ii) **In view of the dicta of the Hon’ble Supreme Court any authority requiring the querist (MCI) to carry out any fresh or compliance verification inspection after 15th June 2014 would attract the initiation of proceedings under the Contempt of Court Act, 1971.”**

The Members of the Executive Committee also noted that the claims made by various private medical colleges of removing deficiencies in relation to infrastructural, teaching and other facilities through their respective compliance reports [deficiencies as found during the initial inspection], require physical verification by conduct of inspections. Besides the aspect of complete impermissibility in this regard, verification by inspections can even otherwise is not possible physically. It was reiterated that it is not permissible for the MCI to undertake any such exercise after 15.06.2014. In view of the binding directions of the Hon’ble Supreme Court as has also been advised by the Id. Solicitor General of India. Accordingly, it was resolved to inform this position to the Ministry of Health, Govt. of India and refer back to the Ministry of Health, Govt. of India all such communications of the medical colleges, mentioned above and the Council would not be retaining any copy of these compliance report.

14. Establishment of a new medical college at Koppal, Karnataka by Government of Karnataka under Rajiv Gandhi University of Health Sciences, Bangalore, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2014-15- compliance regarding.

Read: the matter with regard to Establishment of a new medical college at Koppal, Karnataka by Government of Karnataka under Rajiv Gandhi University of Health Sciences, Bangalore, Karnataka u/s 10A of the IMC Act, 1956 for the academic year 2014-15- compliance regarding.

The Executive Committee of the Council considered the letter/compliance dated 23/06/2014 received from the Director, Koppal Institute of Medical Sciences, Koppal furnishing the compliance report for rectification of deficiencies pointed out by the Council Assessors in the assessment report as forwarded by the Central Government vide letter dated 1st July, 2014 received in the Council Office on 1st July itself as well as compliance report dt. 11th July, 2014 submitted at the time of hearing as well as undertaking received from Health Secretary, Health Deptt. of Govt. of Karnataka dt. 12.07.2014 alongwith the previous assessment report (15th & 16th May, 2014) and noted that there are in existence gross deficiencies in relation to infrastructural, teaching and other facilities in this Government college. Despite the best efforts having been made by the MCI to persuade the concerned college / state authorities to remove these deficiencies, the deficiencies have not been removed. The application of this college u/s 10A of the Act, is for the grant of letter of permission for starting meaning thereby, if the LoP was to be granted to this Government medical college, it would have had entitled to admit the 1st batch of students by virtue of fresh letter of permission. It may be noticed that the infrastructural, teaching and other requirements, which have been stipulated by the MCI through the statutory regulations are the **minimum** requirements for imparting medical education to the students and strict adherence therewith is a statutory imperative. Under the scheme of Section 10A of the Act and the regulations made thereunder, letter of permission, if granted, entitles any medical college to make the admission of 1st batch of students and whereafter further augmentation in the infrastructural, teaching and other facilities are required to be fulfilled in every subsequent year for obtaining statutory annual renewals. It is obvious that when despite giving repeated opportunities the concerned college and State Authorities have not been able to fulfill the minimum requirements for this medical college, it would be extremely doubtful that this college would be able to fulfill the augmented minimum requirements for the next academic year. In that event, if the students are allowed to be admitted in this year, they would get seriously prejudiced and would not get proper and adequate medical teaching in the second and subsequent years of the course and that would not only be contrary to the statutory position but would also be contrary to the interest of those students.

Under these circumstances, in the light of the gross deficiencies persisting in this college, seeking a fresh letter of permission for the present academic year, the MCI has not been able to find itself in a position to make a positive recommendation in favour of this college and has therefore, been compelled to resolve disapproval of their scheme for grant of letter of permission for establishment of a new medical college at Koppal, Karnataka by Government of Karnataka under Rajiv Gandhi University of Health Sciences, Bangalore, Karnataka u/s 10A of the IMC Act, 1956 for the present academic year 2014-15. The college / State Authorities are requested to fulfill the minimum infrastructural teaching and other requirements and resubmit their request / application for grant of letter of permission for the next academic year 2015-16.

15. Establishment of New Medical College at Chandrapur, Maharashtra by Govt. of Maharashtra under Maharashtra University of Health Sciences, Nashik u/s 10A of the IMC Act, 1956 for the academic year 2014-15 - Compliance Regarding.

The Executive Committee of the Council considered the letter/compliance dated nil of the DME, Mumbai furnishing the compliance report in respect of New Medical College at Chandrapur, Maharashtra for rectification of deficiencies pointed out by the Council Assessors in the assessment report as forwarded by the Central Government vide letter dated 1st July, 2014 received in the Council Office on 1st July itself and noted that no fresh compliance/undertaking has been submitted by Medical Education Secretary, Medical Education Deptt., Govt. of Maharashtra.

The Executive Committee of the Council further noted that there are in existence gross deficiencies in relation to infrastructural, teaching and other facilities in this Government college. Despite the best efforts having been made by the MCI to persuade the concerned college / state authorities to remove these deficiencies, the deficiencies have not been removed. The application of this college u/s 10A of the Act, is for the grant of letter of permission for starting meaning thereby, if the LoP was to be granted to this Government medical college, it would have had entitled to admit the 1st batch of students by virtue of fresh letter of permission. The Executive Committee of the Council considered the letter/compliance dated 20/06/2014 received from the Principal, Manyavar Kanshi Ram Ji Govt. Allopathic Medical College, Jalaun, U.P. furnishing the compliance report for rectification of deficiencies pointed out by the Council Assessors in the assessment report as forwarded by the Central Government vide letter dated 1st July, 2014 received in the Council Office on 1st July itself as well as compliance report dated 11th July, 2014 submitted at the time of hearing alongwith the previous assessment report (2nd & 3rd May, 2014) as well as undertakings received from the Chief Secretary, Govt. of UP, Lucknow vide letter dt. 2nd July, 2014 & dated 12.07.2014 of Health Deptt. of Govt. of U.P. and decided to recommend to the Central Govt. to renew the permission for MBBS course for 2nd batch (100 seats) of Manyavar Kanshi Ram Ji Govt. 28. Establishment of a new medical college at Ambikapur, Distt. Sarguja, Chhattisgarh by Government of Chhattisgarh under Chhattisgarh Ayush and Health Sciences University, Raipur u/s 10A of the IMC Act, 1956 for the academic year 2014-15– compliance regarding.

The Executive Committee of the Council considered the letter/compliance dated nil of the Dean, Govt. Medical College, Ambikapur furnishing the compliance report for rectification of deficiencies pointed out by the Council Assessors in the assessment report as forwarded by the Central Government vide letter dated 1st July, 2014 received in the Council Office on 1st July itself as well as compliance report dated 6th July, 2014 submitted at the time of hearing alongwith the previous assessment report (6th & 7th June, 2014) as well as undertaking received from Health Secretary/Medical Director, Health Deptt. of Chhatisgarh dt. 12.07.2014 and noted that there are in existence gross deficiencies in relation to infrastructural, teaching and other facilities in this Government college. Despite the best efforts having been made by the MCI to persuade the concerned college / state authorities to remove these deficiencies, the deficiencies have not been removed. The application of this college u/s 10A of the Act, is for the grant of letter of permission for starting meaning thereby, if the LoP was to be granted to this Government medical

college, it would have had entitled to admit the 1st batch of students by virtue of fresh letter of permission. It may be noticed that the infrastructural, teaching and other requirements, which have been stipulated by the MCI through the statutory regulations are the **minimum** requirements for imparting medical education to the students and strict adherence therewith is a statutory imperative. Under the scheme of Section 10A of the Act and the regulations made thereunder, letter of permission, if granted, entitles any medical college to make the admission of 1st batch of students and whereafter further augmentation in the infrastructural, teaching and other facilities are required to be fulfilled in every subsequent year for obtaining statutory annual renewals. It is obvious that when despite giving repeated opportunities the concerned college and State Authorities have not been able to fulfill the minimum requirements for this medical college, it would be extremely doubtful that this college would be able to fulfill the augmented minimum requirements for the next academic year. In that event, if the students are allowed to be admitted in this year, they would get seriously prejudiced and would not get proper and adequate medical teaching in the second and subsequent years of the course and that would not only be contrary to the statutory position but would also be contrary to the interest of those students.

Under these circumstances, in the light of the gross deficiencies persisting in this college, seeking a fresh letter of permission for the present academic year, the MCI has not been able to find itself in a position to make a positive recommendation in favour of this college and has therefore, been compelled to resolve disapproval of their scheme for grant of letter of permission for establishment of a new medical college at Ambikapur, Distt. Sarguja, Chhattisgarh by Government of Chhattisgarh under Chhattisgarh Ayush and Health Sciences University, Raipur for the present academic year 2014-15. The college / State Authorities are requested to fulfill the minimum infrastructural teaching and other requirements and resubmit their request / application for grant of letter of permission for the next academic year 2015-16.

29. Establishment of New Medical college at Saharanpur, Uttar Pradesh by Government of Uttar Pradesh under Ch. Charan Singh University, Meerut u/s 10A of the IMC Act, 1956 for the academic year 2014-15 - Compliance Regarding.
