Read: the Assessment Report (16/10/2014) on the physical and other teaching facilities available at Institute Of Medical Sciences & SUM Hospital, Bhubaneswar under Siksha "O" Anusandhan University Bhubaneswar for Starting of MD (General Medicine) Course u/s 10A of the IMC Act, 1956 for the academic year 2015-16.

The Postgraduate Medical Education Committee considered the Assessment Report (16/10/2014) and decided to recommend to the Central Govt. to disapprove the scheme for Starting of MD (General Medicine) Course at Institute Of Medical Sciences & SUM Hospital, Bhubaneswar under Siksha "O" Anusandhan University Bhubaneswar u/s 10A of the IMC Act, 1956 for the academic year 2015-16, because of the following facts:-

1. Dr. Nabakishore Sundaray, Professor & HoD is not eligible to be appointed as Professor because he has been Advisor only for less than 2 months as against the requirement of 5 years, without any publications in Indexed Journals.
2. Dr. Sobhitendu Kabi, Assoc. Professor is from Army. His experience as Graded Specialist, Classified Specialist and Advisor has not been provided to calculate his eligibility for Assoc. Professor.

6. ICU beds 9 with occupancy of 4 but bed occupancy rate has been shown as 90%.
7. Other deficiencies as pointed out in the Assessment Report.

The Postgraduate Committee noted with concern that:-

1. In all surgical departments (except Ophthalmology) the college has shown that total number of yearly major surgeries during the last three years is more than the total number of patients admitted (IPD) during that period which is not possible. This is willful and of supplying false and fabricated information by the college. In Ophthalmology total number of yearly major and minor surgeries have not been provided and the column has been deleted from the SAF and SAF has been altered. Yearwise details of the total yearly IPD and total number of major surgeries shown as having been done during that period are detailed below. This does not include minor surgeries atleast some of which must have also been done after admission. All this indicate that the data is not genuine and fabricated by the college. This obviously should also be a reflection of the state of affairs in non-surgical departments.
